

The complete application

Questions?

For more information, please contact a SAIF agency marketing specialist at 800.285.8525.

Applying for SAIF workers' comp coverage for your clients is easy.

Use **saifQuote**, our fast, easy online submission system that's based on the ACORD form. You can access **saifQuote** through Business Online.

A submission has two levels of 'completeness.' The first is **complete to release to agent** and the second is **complete to quote**. In either case, an incomplete application slows down the submission process.

Complete to release to agent

In order for SAIF to release a submission to an agent, the following information must be received:

- Agency name
- Applicant name
- Mailing address
- Phone number
- FEIN, if available
- Entity type
- Risk ID, if available
- Effective date
- Expiration date
- Physical business location
- Interested party (IP) name
- IP title/relationship
- Percentages of ownership
- Included/excluded
- IP class code
- IP payroll
- Description of operations
- Class codes
- Payroll for classes

Complete to quote

In order to receive a quote from SAIF, either electronically through saifQuote or from an underwriter/insurance representative, a submission needs not only the above information, but also the following information:

- Prior coverage including premium, number and type of claims, amount paid for claims
- Answers to the general information questions from the ACORD
- Answers to the SAIF questions
