

A new online payment system at SAIF

Learn the benefits of One Inc, SAIF's online payment platform.

We are excited to let you know about updates to SAIF's online payment platform. Soon, all SAIF payment processes will transition from U.S. Bank to One Inc. With One Inc as our new payment platform and processor, you can:

- Use quick pay to make a payment on a policy using only a policy number and mailing address zip code. Anyone can make payments through the quick pay process, which does not require logging into an account.
- Make a premium payment using an interactive voice response system
- Split payments between two separate credit cards during the same transaction
- View your invoices within the payment system
- View estimated billing information for future invoices
- Make payments with Google Pay

Aside from the benefits listed above, One Inc offers a more modern and improved customer experience.

We're here to help

We want to make this transition as seamless as possible, but we know this change could spark a lot of questions. We've tried to answer many of them on saif.com/payments with our FAQs. Also please feel free to call us at **800.285.8525**.
