

2024 dependent child enrollment notice

Notice of opportunity to enroll child dependents for coverage up to age 26

Effective January 1, 2011, the Patient Protection and Affordable Care Act (PPACA) extended group health plan coverage to child dependents whose coverage ended, or who were denied coverage (or were not eligible for coverage), because the availability of dependent coverage of children ended before age 26. Dependent children are eligible to enroll in one of SAIF Corporation's group health plans—Kaiser Permanente or Providence Health Plan—during open enrollment or if a qualifying event occurs. In the case of a qualifying event, enrollment for such children may be requested up to 30 days from the date of notice that the eligible dependent child lost coverage. Participation, if initiated during open enrollment, will be effective January 1, 2024. Otherwise, all other enrollments will become effective on the first of the month following the qualifying event.
